

Election of the Dean's candidate for the term 2024-2028

Vice-Deans candidates

doc. RNDr. Mirko Rokyta, CSc.

If I am elected the Dean of the Faculty of Mathematics and Physics for the term 2024-2028, I would propose that the following persons stand as Vice-Deans candidates:

Vice-Dean for Research and International Affairs

prof. RNDr. Zdeněk Doležal, Dr. (School of Physics)

Vice-Dean for Student Affairs

doc. Mgr. Michal Kulich, Ph.D. (School of Mathematics)

Vice-Dean for Education

doc. RNDr. Vladislav Kuboň, Ph.D. (School of Computer Science)

Vice-Dean for Development

prof. Ing. Jan Franc, DrSc. (School of Physics) *)

Vice-Dean for Physics

doc. RNDr. Jiří Pavlů, Ph.D. (School of Physics) **)

Vice-Dean for Computer Science

prof. RNDr. Jiří Sgall, DrSc. (School of Computer Science)

Vice-Dean for Mathematics

prof. RNDr. Vít Dolejší, Ph.D., DSc. (School of Mathematics)

Vice-Dean for Public Relations

doc. Mgr. Michal Žák, Ph.D. (School of Physics) ***)

*) He was a member of the management of the MFF UK since the beginning of the mandate of the current management but held the position of a Vice-Dean for Physics.

***) So far, he was not a member of the management of MFF UK.

***) He was not a member of the current management of MFF UK until March 1, 2022, when he replaced doc. M. Vlach at a position of a Vice-Dean for Public Relations.

The other proposed Vice-Deans have been members of the management of MFF UK at the same positions since the beginning of the mandate of the current management.

In addition to the Dean and Vice-Deans, the management of the faculty consists also of the bursar of the faculty, **Ing. Blanka Svobodová**, who has been holding the position since January 20, 2021.

M. Rokyta, March 31, 2024
